Malappuram, Kerala, India

PROFILE

Detail-oriented Information Technology graduate specializing in Cybersecurity and Ethical Hacking, with hands-on exposure to Security Operations, Penetration Testing, Web Application Security, and Digital Forensics. Experienced with Linux, Splunk, Burp Suite, Nmap, Web Application Security, and programming fundamentals in Python, Java, C++, JavaScript, SQL, HTML, and CSS. Seeking entry-level opportunities in SOC Operations, Cybersecurity, and Ethical Hacking.

EXPERIENCE

Mulearn District CyberSecurity IG Lead

08/2025 – 03/2027

Volunteer

Idukki, India

- Led the CyberSecurity IG team and contributed to cybersecurity initiatives within the Mulearn community.
- Assisted in developing cybersecurity awareness training programs for community members.
- Supported incident response activities by documenting and analyzing security breaches.
- Collaborated with team members to enhance security protocols and procedures within the organization.

Cybersecurity Virtual Intern

06/2025 – 07/2025

C-DAC Noida

India

- Conducted research on phishing techniques that bypass spam detection as part of a Cybersecurity virtual internship.
- Analyzed phishing methods and evasion techniques in simulated security environments.

EDUCATION

Bachelor of Information Technology

Expected 01/2027

Government Engineering College Idukki, Idukki, Kerala, India

- GPA: 6.57
- Specialization: Information Technology, Cybersecurity and Ethical Hacking

Higher Secondary Diploma

03/2023

Sree Vivekananda Higher Secondary School, Palemad, India

- Completed Higher Secondary Education.

TECHNICAL PROJECTS

Analyzing Phishing Techniques That Bypass Spam Detection – C-DAC Noida

May 2025 – June 2025

- Analyzed phishing techniques including CSS-based tracking, white text obfuscation, image embeds, and spoofed domains designed to evade spam filters.
- Evaluated JavaScript and keyword-based detection methods and tested phishing evasion techniques in simulated email environments using ethical security tools.

TARKYA – Python Learning Game

- Developed a mini project in B.Tech third year: a Python learning game designed for beginners and students.
- Applied programming fundamentals and educational game concepts to create an interactive learning experience.

SKILLS

- **Cybersecurity:** Ethical Hacking, Penetration Testing, Security Operations, Web Application Security, Digital Forensics, Incident Response, Threat Analysis, SIEM
- **Security Tools & Platforms:** Burp Suite, Metasploit Framework, Nmap, Splunk, PortSwigger Web Security Academy, TryHackMe, Hack The Box
- **Operating Systems:** Windows, Linux, Kali Linux, Parrot OS
- **Programming & Scripting:** Python, Java, C, C++, JavaScript, SQL, HTML, CSS
- **Languages:** Malayalam (Advanced), English (Intermediate), Hindi (Beginner), Tamil (Beginner)
- **Professional Skills:** Problem-Solving, Analytical Thinking, Adaptability, Dependability, Communication, Teamwork, Leadership, Documentation, Reporting, Client Communication

CERTIFICATIONS

- Google Cybersecurity Professional Certificate – Coursera, 2026
- Certified Cybersecurity Educator Professional (CCEP) – Red Team Leaders, 2025

ADDITIONAL INFORMATION

- **Interests:** Cybersecurity & Ethical Hacking, Travel, Reading, Writing, Photography, Videography, Music, Football, Fitness & Strength Training
- **Additional Coursework:** Google Cybersecurity Professional Certificate, Coursera, Cybersecurity
- **Accomplishment:** Developed TARKYA, a Python learning game for beginners and students as a B.Tech third-year mini project.
